CAREER OBJECTIVE

Aspiring Data Analyst with a strong foundation in data visualization, statistical analysis, and data-driven decision-making. Skilled in transforming complex datasets into actionable insights using tools like Excel, Power BI, Python, and SQL. Eager to contribute to data-driven strategies that enhance business outcomes.

PROJECTS

Sales Dashboard Analysis (Power BI, Excel, SQL)

- Built an interactive Power BI dashboard to track regional and monthly sales performance.
- Used Excel for data cleaning and aggregation with PivotTables and Power Query.
- Wrote SQL queries to fetch sales data and calculate KPIs like revenue, growth, and profit margin.

Handwritten Digit Recognition (Python, TensorFlow, Keras)

- Trained a Recurrent Neural Network to classify handwritten digits from the MNIST dataset.
- Preprocessed data using NumPy and Pandas; visualized performance using Matplotlib.
- Achieved 98% model accuracy through hyperparameter tuning and validation.

EDUCATION

Bachelor of Computer Application – Bangalore City University, Bangalore – July 2024

CERTIFICATIONS

Data Analyst Career Track – GUV, ITTM Pravartak (Expected 2025)

- Projects in sales analysis, churn prediction, and customer segmentation.
- Tools covered: Excel, Power BI, SQL, Python, Jupyter Notebook.

TECHNICAL SKILLS

Data Visualization: Power BI, Excel Dashboards

Excel Tools: Pivot Tables, VLOOKUP, Power Query, Charts

Programming Languages: Python (Pandas, NumPy, Matplotlib, Seaborn)

Data Handling: Data Cleaning, EDA, Transformation

Databases: SQL (Joins, Aggregations)

Tools: Jupyter Notebook, Google Sheets, Git
